Summer 2021 Water Bottle Policy

This summer, we ask that you pack two dishwasher-safe water bottles for each camper. Over the summer, water bottles will be washed a few times each week! Please ensure that water bottles are labeled with your camper's name, have a **covered mouthpiece**, and **don't include inserts such as straws or removable mouthpieces**. We know that this policy is more strict than it has been in previous years, but increased sanitation is important to our COVID-19 prevention plan.

Do not bring:

Why Not?
